

Hiring for the Eventual Recovery

 **UNITED JOBS**

SBF has been appointed as the central coordinator for the SGUnited Jobs (SGUJ) Initiative, working with members of Trade Association and Chambers (TACs) to match job vacancies with local job seekers. For companies who are looking to hire people may get in touch with SGUJ team to help with B2B job matching after this webinar.

This webinar also hope to get eligible companies accelerate their hiring by tapping on the Jobs Growth Incentive (JGI) scheme. Eligible firms will not need to apply and can look forward to receiving the JGI payouts automatically from March 2021 onwards. The JGI provides substantial salary support to enable these firms to bring forward their hiring plans and grow their local workforce over the next six months, from September 2020 to February 2021. Together with the extension of the Jobs Support Scheme, this is a major boost for job creation for locals.
